Statement by Councilmember Denis regarding General Assembly Vote to support ICC Study

"I am very pleased with the action taken by the General Assembly to overwhelmingly pass the Joint Resolution introduced by Senate President Thomas Mike Miller and House Speaker Casper Taylor and others urging Governor Glendening and Lt. Governor Townsend to complete the Environmental Impact Statement for the Inter-County Connector.

"The ICC is long overdue. An east-west connector highway has been planned for over 40 years.

"I urge the Governor Glendening and Lieutenant Governor Townsend to heed the General Assembly's vote and complete the Environmental Impact Statement. Let's get our congested highways moving again."
